Internet Explorer

- 1. To the right of the search bar, click on the **Tools gear icon** 🖾.
- 2. Select Internet Options from the list of tools.
- 3. Choose the **Privacy** tab at the top of the **Internet Options** dialog box.
- 4. Click on the Settings button shown under the Pop-up Blocker heading.

Pop-up Blocker	
✓ Turn on Pop-up Blocker	Settings

- 5. Type in myview.umsl.edu for Address of Web site to allow
- 6. Click the **Add** button
- 7. Click the **Close** button

Shortcut:

When a pop-up is blocked by Internet Explorer, it will display a white and yellow banner at the bottom of the screen as shown below. When you click **Options for this Site**, one of the available options is **Always Allow**. Selecting this option will prevent Internet Explorer from blocking MyView's pop-ups in the future.
