Safari

1. With Safari open, open the Safari Menu near the Apple Logo in the top left-hand corner.

- 2. From this menu, select the **Preferences** option.
- 3. This should open a dialogue box with different category icons at top. Select the Globe icon labeled **Websites**.
- 4. On the left-hand side under General, select the Pop-up windows option
- 5. You can allow all pop-ups by changing the option labeled **When visiting other websites:** from **Block and notify** to **Allow**.
