Class start & end dates. ↙

Days & Times (please refer to examples shown)

Day(s) of week & specific time: If a class is meeting face to face on campus, the room location, (Building and room number), day of the week, time of day, and any specific meeting dates will be noted. If the class is meeting virtually via Zoom, the location or "room" is listed as ONLINE. Students are expected to log in and participate on the days/times listed. (This is known as synchronous learning).

Arranged: When "Arranged" or "TBA" is listed as "Days" (in Schedule Planner) and for "Days & Times" (in MyView), students are not expected to log in or Zoom at a designated time. Students will complete the online materials as outlined in the class syllabus.

Labs: Pay close attention to instruction mode

Check your schedule carefully. If you have a course with a lab, the lab will be listed separately from the lecture.

An example of this is a **BIOL** or **CHEM** course.

If two identical lab dates and times are listed, it means that your class is likely being divided into two groups for labs. Check with your instructor about your on-campus lab dates and in person meeting format.
